Dental Implantologist, Cosmetic and Oral Dental Surgeon

Sorin started performing Dental Implants in 2006 using several different implant systems throughout the years. He has completed about 40-50 cases of Implant rehabilitation with both fixed and removable appliances (bridges and dentures).

Sorin uses Straumann Implants due to their experience in the industry and the biggest manufacturers worldwide. They are always up to date with the newest research and working with the most important Universities to improve their implant system.

Sorin is also interested in cosmetic dentistry and creating full smile makeovers for his patients.
